

The Power of Partnership

@ APRU Multi-Hazard Summer School

Takeshi Komino

General Secretary, CWS Japan

SG/Executive Committee, Asian Disaster Reduction and Response Network

Regional Steering Group, World Humanitarian Summit Asia

Co-Chair, Humanitarian Policy and Practice Advisory Group at ACT Alliance

Interim Board Member, Core Humanitarian Standard

CWS Global Network

Disaster Trends

From UNISDR...

1. ***Downward trend in mortality risk*** due to enhanced capacities in early warning, preparedness and response.
2. ***Upward trend in economic loss and damage*** due to increase in exposure and vulnerability to natural hazards.
3. ***No sufficient attention, capacity and investment to address underlying risk drivers*** (unequal economic development, poorly managed urbanization, climate change)

Sendai Framework for DRR 2015-2030

- **1.5 billion people** were affected by disasters in various ways.
- At Technical Hazard working session at WCDRR, participants called for proactive risk assessment, and **transparent disclosure of risks.**
- Sendai Framework's priority of areas:
 - 1. Understanding disaster risk;
 - 2. Strengthening disaster risk governance to manage disaster risk;
 - 3. Investing in disaster risk reduction for resilience;
 - 4. Enhancing disaster preparedness for effective response, and to "Build Back Better" in recovery, rehabilitation and reconstruction.
- Clear focus on **risk identification and mitigation.**

World Humanitarian Summit Consultations

- Nearly **70 million people**, half of them children, have been forced from their homes due to conflict and violence.
- In the last two decades, **218 million people** each year were affected by disasters; at an annual cost to the global economy that now exceeds **\$300 billion**.
- Build hope and solutions by investing in preparedness, **managing and mitigating risk**, reducing vulnerability, finding durable solutions for protracted displacement, and **adapting to new threats**.
- *Business as usual is not going to address humanitarian needs.*
- *Increase in disasters → More risks to industrial sites.*

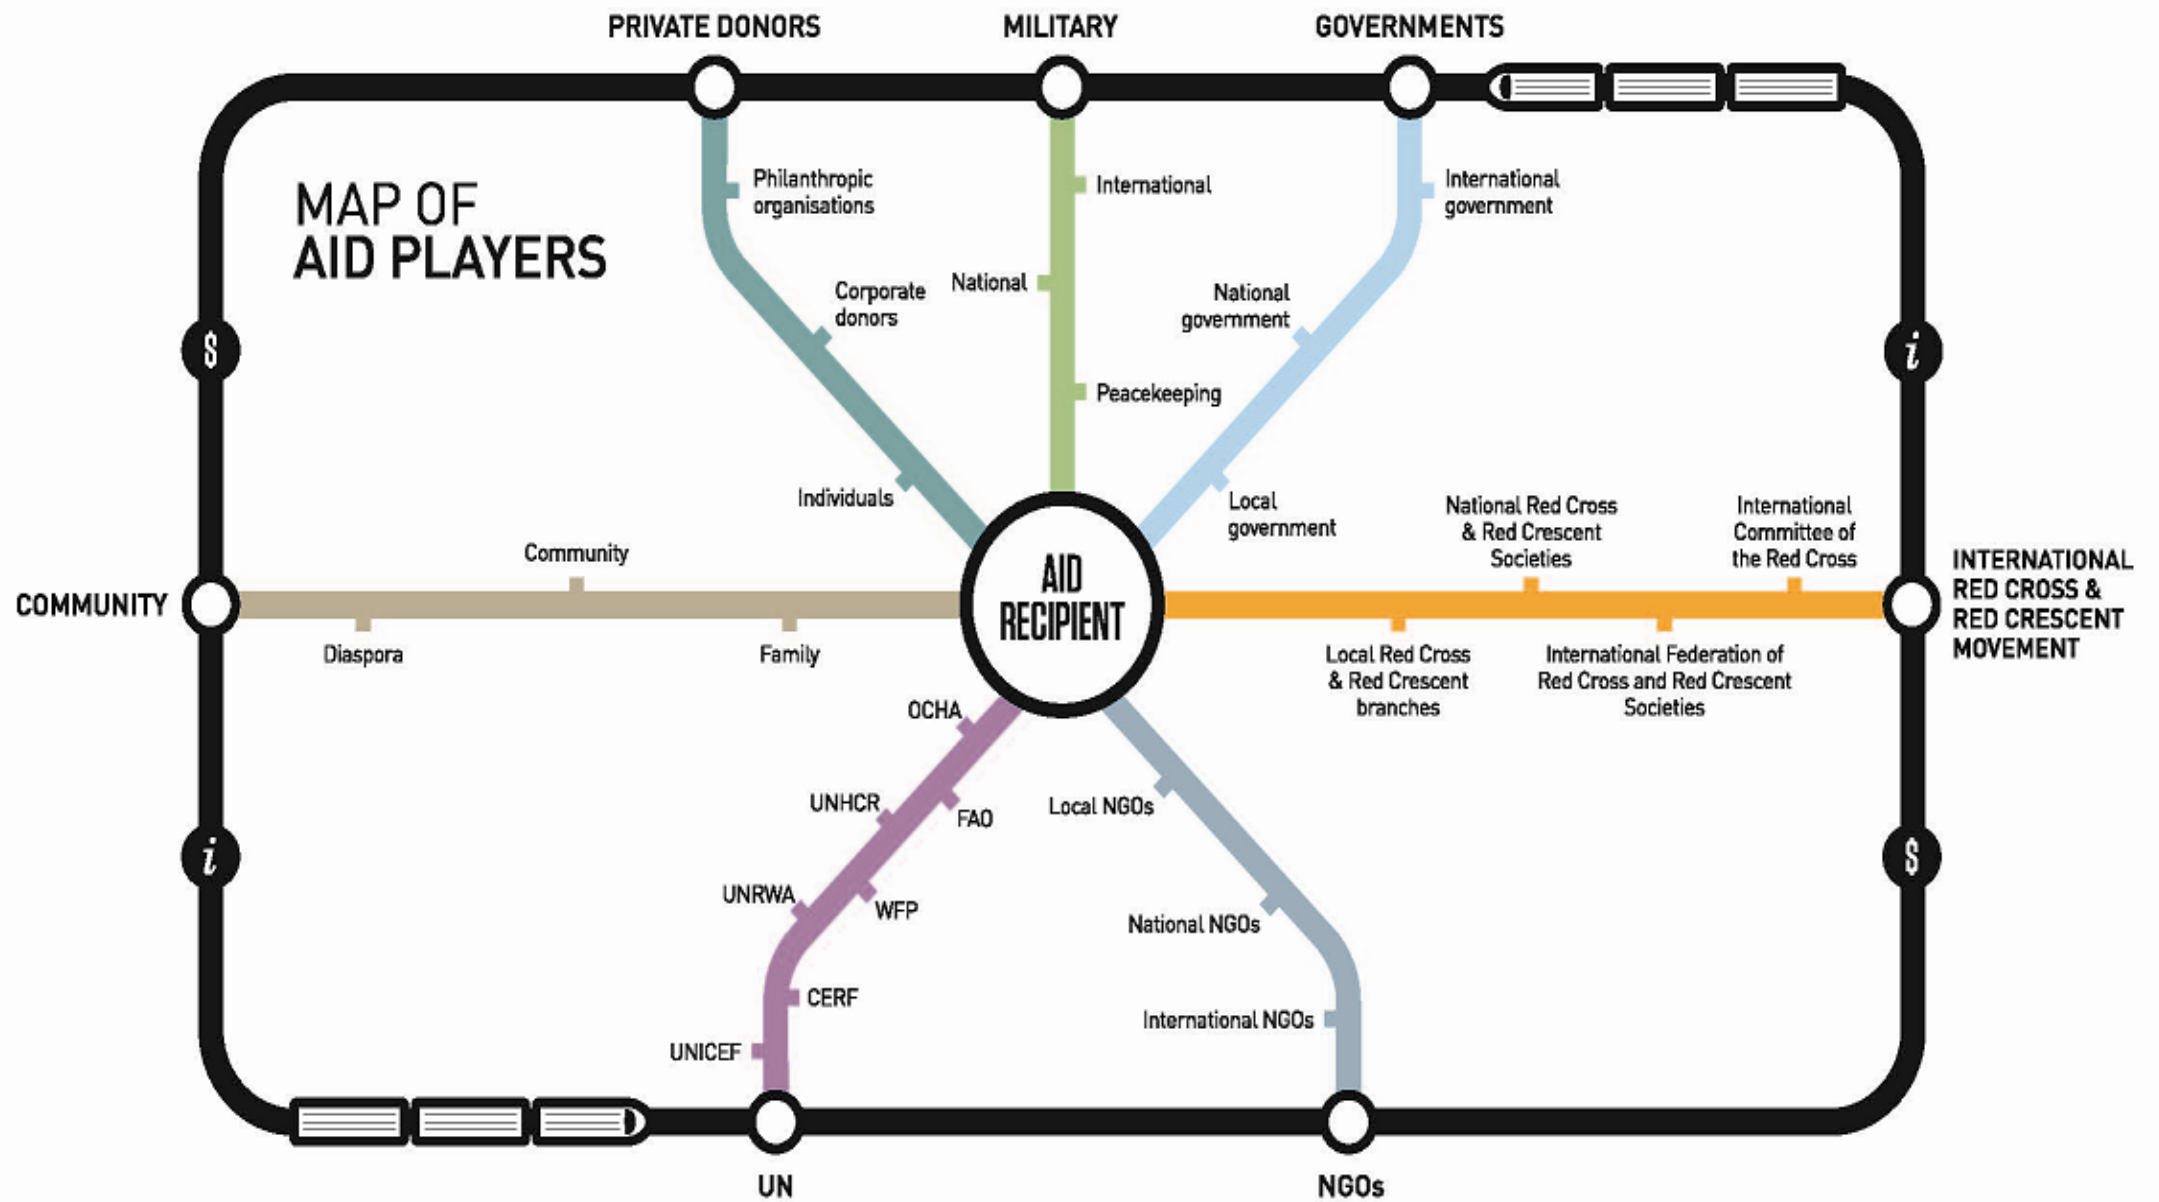

It's Time to Re-examine Partnership

Why...?

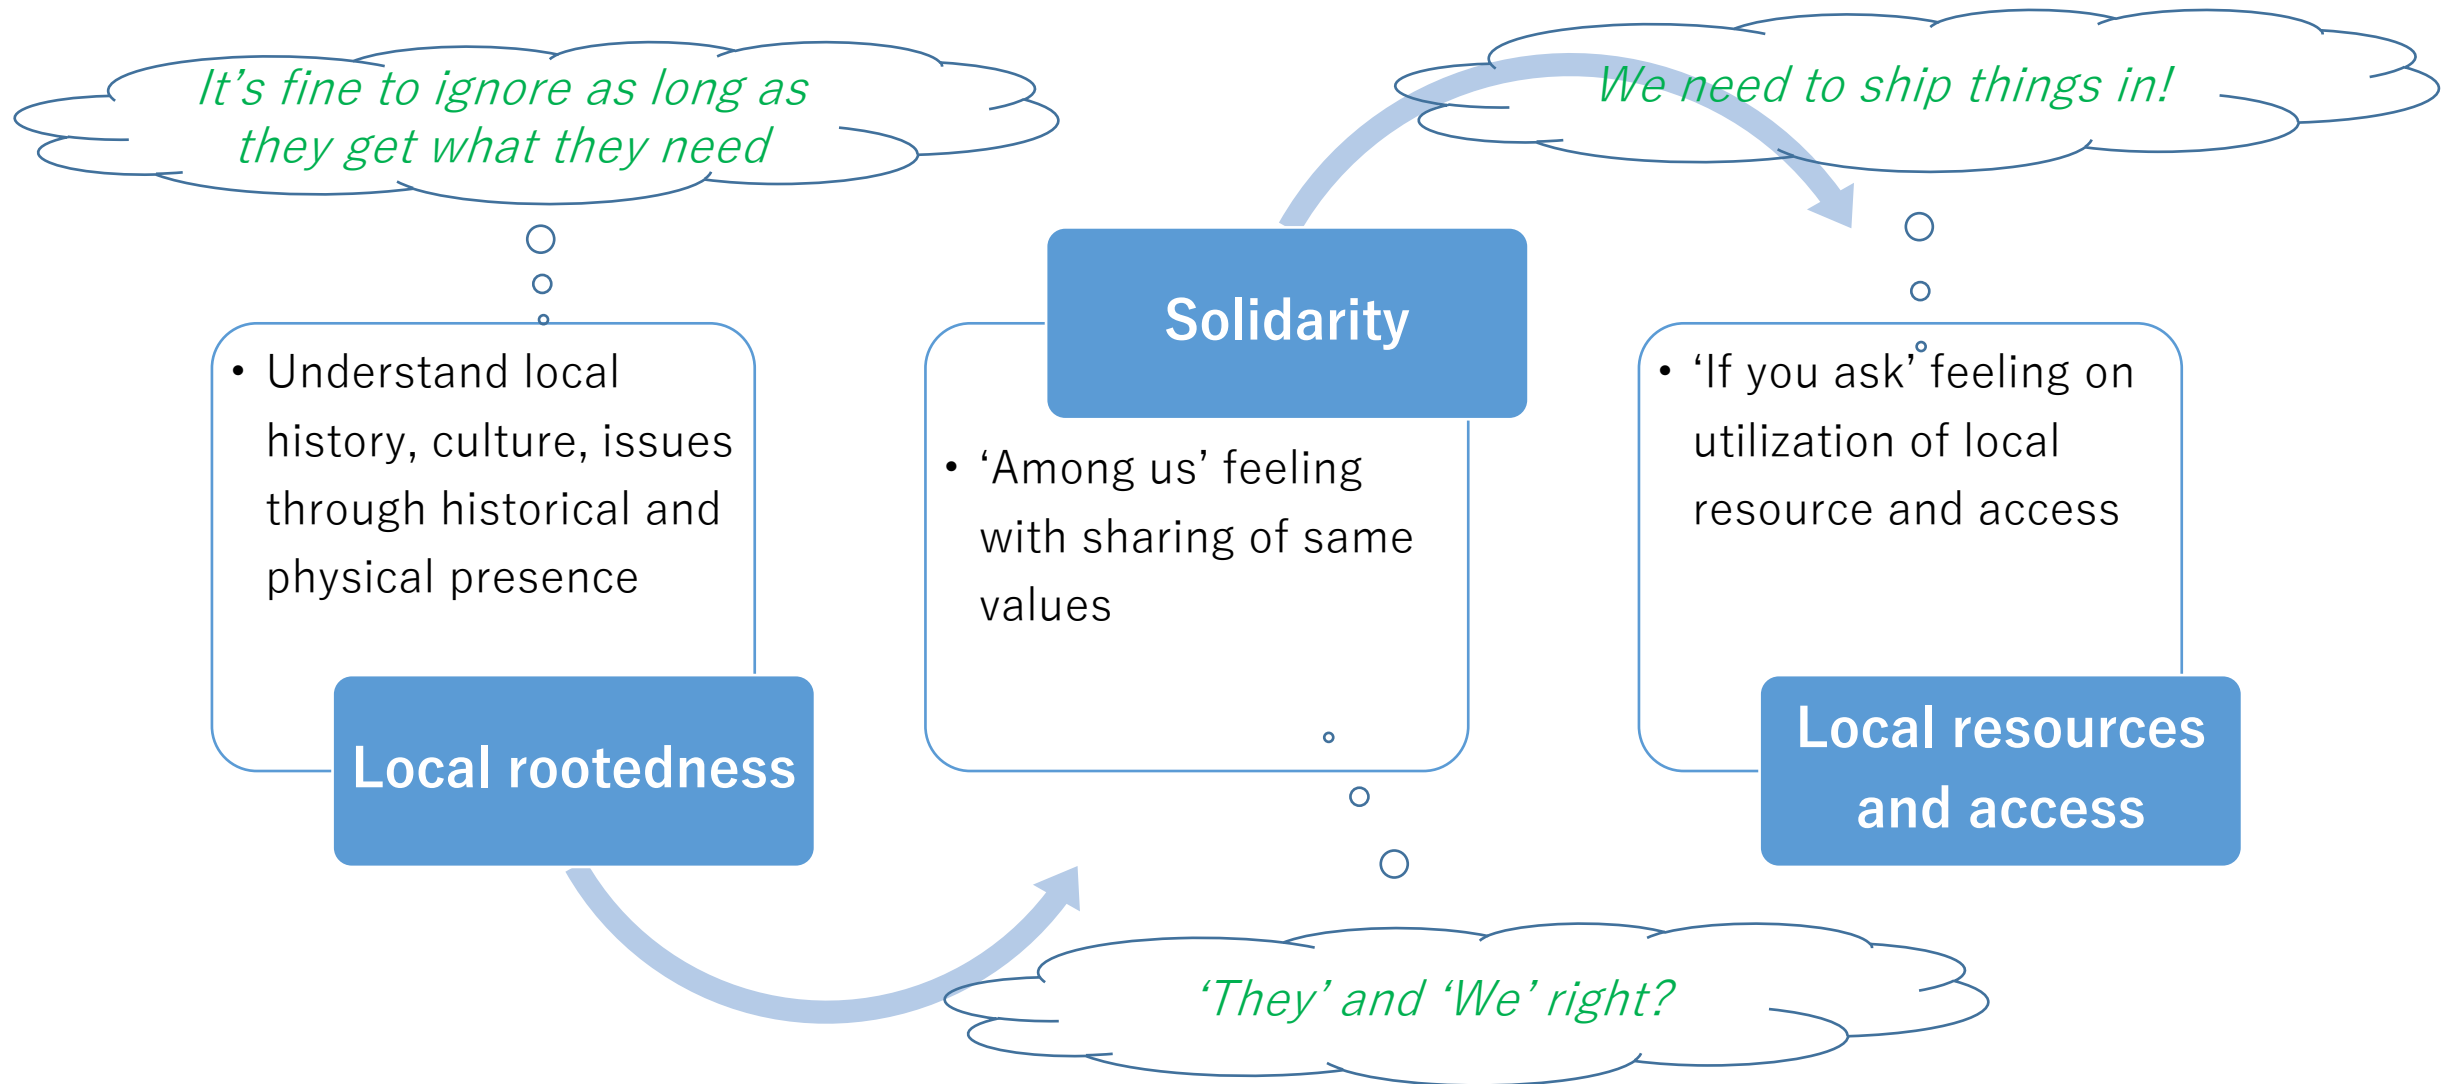

- We'll need to do more with less
- We'll need to solve the unsolved
- We'll need to make solutions constant and sustainable

$$1+1=3$$

Strength of Local / Faith Based Organizations

Bridging policy and practice - strengths demonstrated in DRR

- Road to Sendai campaign
- World Humanitarian Summit consultations
- Strategic National Action Plan (SNAP) for DRR in Afghanistan

Always think about operationalizing when creating policies!

Challenges for Local Organizations

- Knowledge – the ‘system’
- Resources –monetary resources and administrative capacity of large grants
- Capacity and innovation – not much incentives for changing

SO, WHAT DO WE DO?

Create Enabling Environment

- **Knowledge – A platform that...**
 - One can feel at home for meaningful participation
 - Can learn from each other
 - Think about and act on collaboration
- **Resources – Support mechanism that...**
 - Allows more programmatic funding towards local organizations
 - Integrate capacity support for those elements that are not strong
 - Intentionally involve from preparedness stage
- **Innovation facilitation that...**
 - Captures innovative elements
 - Amplify best practices to regional/global learning
 - Fosters cross/mutual learning for enhancing capacity

As local as possible, as international as necessary...

Process Innovation Examples

あたらしいスタートが世界一生まれる町へ。
START! ONAGAWA

PlaN^{et} Finance J A P A N 気仙沼信用金庫

Key Lessons from HIF Japan 2016

Conclusion: Elements of Success

- See root causes of the issues
- Use power of others effectively
 - Have passion as a driver
- Be generalist with expert knowledge
 - Have courage to make decisions

Value Producer!
